

MANUAL TRAY SEALER

S 190

This manual machine seals hermetic film on trays up to 270 x 190 mm made from plastic, carton or sugar cane pulp. Thanks to its power-assisted system, pressure is applied without effort, for constant result whatever the operator is.

Maximum tray size: 270 x 190 mm

S 190

Uses

Catering professions

Groceries & supermarkets

Optional: made-to-measure heating plate and mould for other trays.

- ✓ Compact and easy to use, for sealing small and medium-sized trays up to a maximum size of 270 x 190 mm.
- ✓ Handle system with reinforced pressure for easy, effortless sealing.
- ✓ Electronic temperature control and adjustment via soft keyboard.
- ✓ Stainless steel structure for easy cleaning and better resistance to disinfectants (reduces retention zones).

Max. tray height

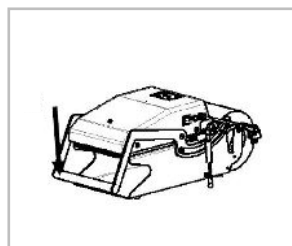

OPERATING PRINCIPLE

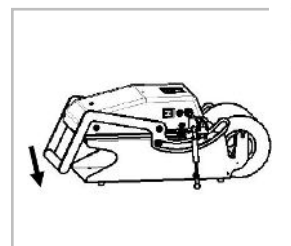

Place your tray and its
contents on the mould.

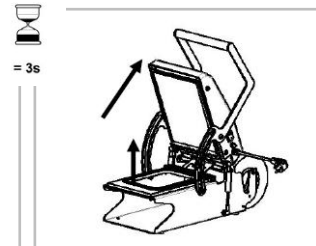

Unroll the film over the
tray.

Lower the handle to cut
and seal the film.

Keep the 2 handles
pressed together for a
few seconds.

The tray is sealed and
ready to use.
