

➤ **Impulse sealers**

designed for sealing complex materials: paper/plastic, coated paper,
simple films
with integrated cutting system

Characteristics

- 8 mm wide weld (possibility of 2 welds of 4 mm without cutting)
- Closing by pedal control
- Electromagnet for constant pressure during the welding process
- Inclined work surface
- Adjustment of sealing and cooling times by digital keys in tenths of a second
- Digital temperature display
- All stainless-steel construction

Options :

- cut
- Width wrapper
